Total-variation distance to uniform (0 = uniform)
τ = 1
(reference)
fitted τ
4.05–5.54
TV distance to uniform
τ (prior temperature)
Normalized entropy (1 = uniform)
H(prior) / log 27
411_141_114 (three specialists)
411 / 141 / 114 _222_222 (one specialist; identical)
222_222_222 (exactly uniform at any τ)
